Sustaining Corporate Sponsorship Form

What is a Sustaining Corporate Sponsorship?

A sponsorship in the amount of \$300 to the Gulf Coast Chapter of the Air and Waste Management Association (A&WMA) benefits local science and, more specifically, environmental education.

Where Does the Money Go?

The sponsorship money donated by a company is forwarded toward different kinds of scholarships. These include scholarships for students in the environmental field, either studying locally or from the local area and studying elsewhere. The Gulf Coast Chapter has given out approximately \$20,000 annually in recent years, and we have funded an Endowed Scholarship at Rice University. Monies from this Endowed Scholarship are presented annually to a student at Rice University in the environmental field.

What are the benefits of being a sponsor?

The company donating the sponsorship money will have their name/logo published in the monthly local chapter A&WMA newsletter for a full year, thanking them for their support. The sponsoring company also receives three 1-year Local Associate memberships to the local A&WMA chapter.

How does a company donate?

Contact Roberto Gasparini (rgasparini@spiritenv.com) or fill out the form below and send the payment to the address below.
